

Delta, Natura, National Park -continuation of National Urban Park

Matti Lankiniemi
Director, Environment Agency
14.6.2013

Pori NUB Facts

- Established by a decision by the Finnish Ministry of the Environment on 2002.
- The total surface area of the park 9.5km²
- The length of the zone is 11 km
- 3 different areas

Kokemäenjoki River delta, largest in northern countries

River estuary at the end of NUP

NUP changes to Natura 2000 nature protection area

Most of the river delta is inside Natura 2000 area

Coordination of NUB in City of Pori

- City Planning Office
- In cooperation with
 - Environmental Agency
 - Park Office
 - Educational Agency
 - Communications unit
 - Cultural Office
 - Recreational Agency

- Management and Utilization plan guides
- Confirmed by City Council and the Ministry of the Environment
- The legal decision
- Should be taken into account in all plans in area and in the immediate vicinity of it

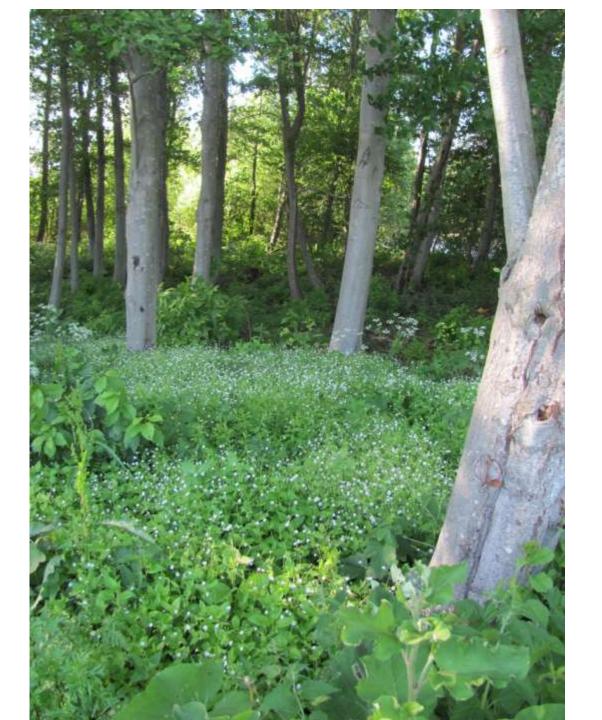

- Management and Utilization Plan
- Multi-objective Management and Utilization Plan of Pori Forest

Forestry
with
nature
protection
values

Park office resources (2012)

- Management of Parks and Green Areas (All together in Pori 1580 ha, of which 1119 ha forests, meadows 129 ha parks A1-3 316 ha, and specific areas of 9 ha)
- Management 3,2 m€,
- Construction 0,5 m€,
- 61 permanent employees,
- 70 periodic employees
- 10 contractors

- The most valuable parks are situated in the NUB
- Most expensive and most demanding to manage
- NUP proportion of all parks about 10%
- NUP proportion of resources about 20%

NUP and the Management and Utilization plan guides for long-term planning?

- Guides the development objectives
 - for example in River Islands
 open-growing areas are kept for at least meadows
 - increasing outdoor use possibilities
 - development objectives → annual investment plan

- In Land use and building projects
- → the Ministry of Environment is one participant
- Building projects in NUP area and near it
 We have to pay more attention to valuable environments as a whole, not only details

- NUP connection to Kokemäenjoki River Delta,
 Natura areas and Bothnian Sea National Park
- NUP plans to increase the area to direction of Delta and Sea Areas

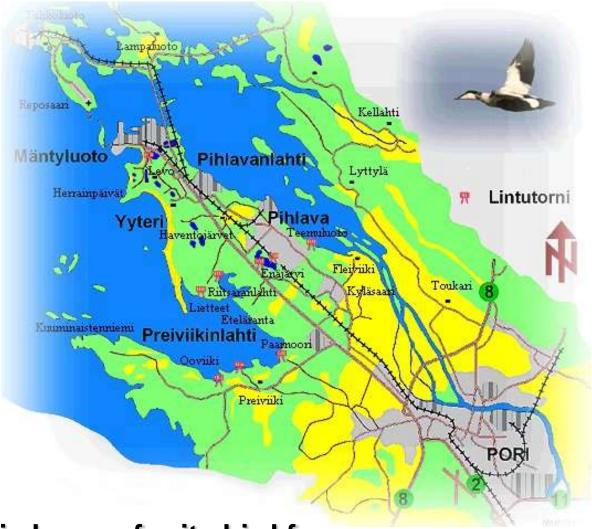

Pori is known for its bird fauna

- 326 species observed
- 12 bird watching towers

Yyteri dunes/silt area, most valuable areas

Photos from nature trails

Bird watching towers and nature towers in Yyteri peninsula

Restoration is used to protect endangered species

Southern dunlin (Calidris alpina schinzii)

Finland 50 pairs Pori 6 pairs

In 1995 27 pairs was breeding in Pori, in 1960's 50 - 60 pairs

The park as a part of people's everyday lives

- Important role
- Good living environment → welfare
- The utilization of NUP area high
- Awareness weak

Increasing awareness of NUP

 Different Projects withing environmental, educational, cultural aspects
