

Hämeenlinna National Urban Park

Special values of Hämeenlinnas' Park: A 'show window' of Finnish nature

Management and utilization plan

 in co-operation with the Environmental Centre of Häme

 interaction with other interest groups, such as land owners in the area

approved by the City Council in May 2002

ratified by the Ministry of the Environment

In the plan there are historical descriptions of the areas as well as objectives and measures to be taken, the implementation of which primarily remains the responsibility of the state and the city of Hämeenlinna.

-> All the principles specified in the management and utilization plan must be applied to town planning and other schemes or decision-making having effect on the area.

Open planning and participatory processes
